## DETAILED ACTION

### *Allowable Subject Matter*

**Claims 18-20, 42-44, 63-65, 73-75, 82-84 and 91-93** are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claims 18, 42, 63, 73, 82 and 91: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a spectrally filtered high power broadband light source comprising an optical component configured to generate amplified spontaneous emission (ASE) having a relatively short coherence length wherein the component comprises a plurality of ASE sources having their outputs combined together to form a composite ASE source and has a plurality of wavelength seed subsections arranged in a serial configuration for generating ASE, a power booster section for amplifying the ASE and wherein each of the seed subsections is arranged to produce ASE in a particular wavelength range, in combination with the rest of the claimed limitations.

With regard to claims 19-20, 43-44, 64-65, 74-75, 83-84 and 92-93: These claims are allowable over the prior art of record because they depend from allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
